

# 10 TOP TIPS TO SCALE YOUR BUSINESS

Scaling up is not just about growing revenue. Our top tips explain what you need to know about scaling successfully.

- 1 Set a clear growth plan**  
Know where you want to go and outline how you will get there. A business that has prepared for how it will scale up is better positioned to attract investors.
- 2 Strengthen your leadership team**  
A strong team is behind many successful businesses. Leaders should bring in diverse skills and make strategic decisions as the business grows.
- 3 Leverage data for your decisions**  
Use performance metrics and market insights to guide your strategy. Look at what customers want and what is profitable, instead of relying on gut instinct alone.
- 4 Secure funding early**  
Getting the right funding and capital, such as loans, investors or government-backed schemes, can help boost your growth plans.
- 5 Broaden your horizons**  
Look out for gaps in the market and different ways you can diversify your income streams. As your business grows, update your processes and capitalise on new opportunities.
- 6 Hire and maintain the right talent**  
Recruit people who fit your culture and invest in their growth. As your business develops, your team must match your goals and have the skills to support you.
- 7 Put your customers first**  
Don't lose sight of your customers as you grow. Listen and adapt your offerings based on their feedback. Prioritise their loyalty.
- 8 Streamline operations**  
Build scalable processes and automate tasks to improve operational efficiency. You can free up valuable time by leveraging technology and outsourcing services.
- 9 Stay flexible**  
The market changes fast, so you must be sure your strategy and operations can evolve with it. Stay ahead of your competitors and always look at how you can improve your services.
- 10 Find the right partners**  
Scaling up cannot always be done on your own. Find the right businesses, independent financial advisers and accountants who offer expertise and access to the right resources and markets.
